What is our lawful basis for processing your information?

Under the UK GDPR, it is essential to have a lawful basis when processing personal information. We normally rely on the following lawful bases:

- Article 6(1)(a) – consent
- Article 6(1)(c) - legal obligation
- Article 6(1)(e) - public task

Where we are processing your personal data with your consent you have the right to withdraw that consent. If you change your mind or are unhappy with our use of your personal data, please let us know by contacting the Headteacher.

There may be occasions where our processing is not covered by one of the legal bases above. In that case, we may rely on Article 6(1)(f) - legitimate interests. We only rely on legitimate interests when we are using your data in ways you would reasonably expect.

Some of the information we collect about you is classed as special category data under the UK GDPR.

The additional conditions that allow for processing this data are:

- Article 9(2)(a) – explicit consent
- Article 9(2)(g) - reasons of substantial public interest

The applicable substantial public interest conditions in Schedule 1 of the Data Protection Act 2018 are:

We may also share information with other third parties where there is a lawful basis to do so. For example, we sometimes share information with the police for the purposes of crime detection or prevention. We also regularly share information with appropriate organisations for the purposes of arranging school trips.

How long do we keep your personal data for?

We will keep your data in line with our Information Policy. Most of the information we process about you will be retained as determined by statutory obligations. Any personal information which we are not required by law to retain will only be kept for as long as is reasonably necessary to fulfil our organisational needs.

We may also retain some information for historical and archiving purposes, where it is in the public interest.

Artificial intelligence (AI)

We may use some systems and platforms that incorporate an AI function. Where we do this, we ensure that the data is held securely and is not used for training the AI model. AI does not make any automated decisions about individuals, and outputs are always subject to human oversight.

International transfers of data

Although we are based in the UK, some of the digital information we hold may be stored on computer servers located outside the UK. Some of the IT applications we use may also transfer data outside the UK.

Normally your information will not be transferred outside the European Economic Area, which is deemed to have adequate data protection standards by the UK government. In the event that your information is transferred outside the EEA, we will take reasonable steps to ensure your data is protected and appropriate safeguards are in place.
